

## Environmental sustainability policy

This policy is applicable to all entities and subsidiaries of Metro Performance Glass Limited

### Purpose

To underpin Metro Performance Glass' purpose to **Make lives brighter every-day** the group is committed to sustainability within the environment we operate in and the communities we serve. To deliver on this commitment we will operate with sustainable business practices and support sustainable solutions for our customers.

### Our Commitments

1. Meet or exceed compliance requirements with all applicable legislation and regulations
2. Examine our business practices and identify initiatives to address environmental risks and opportunities
3. Take action to improve energy efficiency and reduce waste, water use and greenhouse gas emissions across our operations and supply chains
4. Develop appropriate targets that integrate into our business strategy and business performance management systems
5. Report annually to our stakeholders on our sustainability activities and achievements
6. Promote sustainable glass and glazing products and solutions for buildings where our communities live and work
7. Promote and raise awareness of sustainability initiatives, policies and practices among our teams and other stakeholders
8. Integrate "sustainable thinking" into our daily business activities
